

CASE STUDY: BAKERY & CAFE

Utility Management Services, Inc.

Reduces Utility Expenses for Neomonde Bakery & Cafe

Over \$25,000 In Total Savings Identified

Neomonde is a family-owned and operated baking company based in the Raleigh, NC area. The Bakery specializes in European specialty breads and Lebanese pita bread, distributing its products to NC retailers, food service groups like Compass group and to college campuses.

Neomonde also operates two award-winning cafes and markets, where they prepare traditional Lebanese and Mediterranean fare using quality ingredients to ensure authenticity.

Neomonde was exploring ways to increase their bottom line without impacting their daily operations; while preserving their core values and keeping costs down in order to offer the best pricing to customers.

Utility Management Services, Inc. (UMS) approached Neomonde to conduct a comprehensive historical bill audit to identify billing errors, overcharges and future savings opportunities.

Neomonde appreciated the straightforwardness of UMS' service including:

- Simple, one-page agreement
- UMS will investigate available rates and other power provider specific opportunities
- UMS negotiates and communicates with the power provider on your behalf
- If UMS finds savings, the savings are shared; if UMS finds no savings, you pay nothing
- UMS continually monitors your

accounts for the lifetime of the agreement

UMS' Business Energy Professional Analysts successfully secured a one-time refund in excess of \$9,200 and identified \$8,800 in ongoing annual savings for Neomonde.

Utility bill auditing is a great tool for all industries and yields savings for companies of all sizes.

"The best part is the low risk. It is truly a win/win."

Jeff Hood, Controller,
Neomonde Bakery & Cafe
